U.F.A. Rally

Arrowwood Bridge

July 18-19-20

To all U.F.A., U.F.W.A., and Junior Locals in the McLeod constituency.

There will be a U.F.A. rally north of Arrowwood bridge on July 18, 19, and 20. Bring your tents and camping equipment. Cook car and water will be provided.

Juniors will take charge of program the first. Morning session devoted to Sports. After noon session address by Wilfred Hopkins, President and our member O. L. McPherson. Evening session debate and public speaking contest. Topics for contest will be chosen from list sent out from central office. We hope that many Juniors will take part. Prizes of \$3 and \$2 will be given.

Bonfire and community singing every evening.

If you have no Junior Organization in your immediate district try to send some of your young people as delegates to this rally.

We urge you to attend all three days. Mrs. B. Price, Mr. George Coote and other prominent speakers will be with us. Do not miss this wonderful educational opportunity. Picnic and rest in one of the beauty spots along the Bow.

Last year's rally was a real success. Come and help this one even bigger and better.

Committee—Mrs. R. R. McBride, M. H. Ward, Arrowwood, Mrs. Steve Williams, Queenstown, V. J. Bertrand, Milo, J. Oldfield, Vulcan.

Marquis Athletic

Club Sports Day

Friday, July 26

At Lake McGregor. Dance in Milo I.O.O.F. Hall in the Evening

Following is a list of the sports events:

1. Boys' 100 yard dash.
2. Girls' 75 yard dash.
3. Boys' 220 yard dash.
4. Girls' 220 yard dash.
5. Boys' high jump.
6. Girls' high jump.
7. Boys' running broad jump.
8. Girls' running broad jump.
9. Boys' hop, step and jump.
10. Girls' hop, step and jump.
11. Girls' relay race.
12. Boys' relay race.
13. Girls' basketball throw.
14. Boys' half-mile race.
15. Girls' softball and basketball.
16. Boys' softball and basketball.

Elimination games will start at 10 a.m. sharp. All teams must be on hand if they wish to enter. No team arriving at dinner time or later will be allowed to enter.

Come early, please, so that all events can be staged. Jack Bushel, Sec.-Treas., Milo.

Buffalo Hill News

The new teacher for the Buffalo School is Miss G. Roebuck from the Vulcan district. The fall term starts on Tuesday, September 3rd.

The new teacher for the Union Jack School is Miss E. Campbell, daughter of Mr. Neil Campbell of Vulcan. (Continued on page 4)

Striking while the iron is hot is a characteristic of the West that has gained the admiration of the rest of Canada. And so there is little surprise in the announcement that the Board of Trade at Invermere, B.C., has leased the bungalow camp at beautiful Lake Windermere for this summer, in anticipation of increased tourist traffic to the Canadian Rockies, which has been generally forecast in Europe, the Orient, and the United States.

The camp, which is being taken over by small but over-galactic Invermere, is one of the most delightfully situated in the world, being situated in the heart of the Canadian Pacific Railway, this camp has been successfully operated for the past

several years as a private camp for girls. In the centre of an ideal vacation district, it is easily reached by main mountain highway. The famous Hunt-Windermere road leads to it, a good alternative route being through the mountains from Cranbrook. The lake averages about 68 degrees in the summer and is ideal for swimming and boating. Excellent trout fishing can be had in several creeks and smaller lakes near by and the lake itself has landlocked salmon of considerable size. Within a day's ride is the celebrated Lake of the Hanging Glaciers, with its spectacular glaciers all concentrating in one moraine with an ice wall several hundred feet high which drops a continual succession of small icebergs into the lake.

The camp is a particularly good centre for the whole summer's rest and exploration, because many are the side trips that can be made by car, mountain-bred ponies, or on foot to adjacent spots of beauty or historic interest. Tennis courts and motor launches are available for the use of the guests.

There is accommodation for 42 guests in the camp, which consists of a large main building, with wide veranda, and of separate small bungalows, equipped with single beds, stove, clothes closet, and electric lights. A double bath-house, with hot and cold running water, contains separate bath rooms.

Basketball Notes

The A.H.S. Girls' basketball team overhauled the Cluny quintette by a convincing 54-14 score at Cluny Tuesday night. The Cluny girls were first to score, but the A.H.S. soon found their bearings and scored almost at will. Ruby Hall was the outstanding player on the court scoring 32 points for Ar-

rowwood to defeat the opponents almost single handed. Encouraged by the stellar shooting of this elusive forward the A.H.S. girls worked as a team to pile up the biggest basketball score in A.H.S. history for years.

The Team—Edna Beagle, Mary Dumka, Dorothy Brown, Ruby Hall, Vera Holsboeth, Annie Dumka, Betty Joan Vancil.

Coach—H. McCullough

Schools of Agriculture

OLDS and VERMILION

1935-36 Term Opens October 22, 1935

Established 21 years ago, these schools have provided free tuition in Agriculture and Home Economics to more than 8,000 farm boys and girls. No entry fee or entry examination is required. Age requirement is 16 years and over. Academic requirement none save ability to undertake and profit from the course. Room and board provided in modern dormitories at reasonable rates. Term is five months.

Write for Calendar and other information to Principal of either school or to

Alberta Department of Agriculture

HON. F. S. GRISDALE,
Minister of Agriculture

H. A. CRAIG,
Deputy Minister and
Superintendent of Schools

Arrowwood Notes

Miss Alice Archambault is having a two weeks holiday from duties in the A.G.T. office.

Joan Allen of Red Deer is spending the holidays with Mr. and Mrs. R. E. Hales.

Bill McKinley will run a refreshment booth at U.F.A. Rally at the river, July 18th-20.

Born—At Mrs. Lewendon's Nursing Home, to Mr. and Mrs. Clifford of Gleichen, on Wed. July 10, a daughter.

Mr. and Mrs. Strum of Queenstown, former residents of Arrowwood, were visitors in town Sunday evening.

Miss Lillian Archambault of Ensign is spending her holidays visiting relatives in Arrowwood.

We are pleased to report that Mr. W. C. Lyle, who has been under the Doctor's care, is improving and expects to be out again next week.

Miss Edna Beagle returned home Saturday after visiting for a week with her sister, Miss Ruth Beagle, at Queenstown.

Mrs. R. B. McBride has received word from one group in the South that twenty-five members are planning to attend the U.F.A. Rally at the River, July 18-20.

After spending a week with Mr. F. Johnston at Queenstown Irwin Scott returned to Arrowwood on Saturday.

Mr. and Mrs. Simmie of Turner, Sask., were visitors last week at the home of the former brother, Mr. Bert Simmie.

Eddie Lewendon had the misfortune to overturn the Leonard truck near the Lyle farm Wednesday afternoon, when hauling gasoline from Turner Valley. Muddy roads were the cause of the wreck but the fates were with Eddie as he escaped uninjured. The truck was little damaged.

A delightful shower in honor of Mildred Kauffman was held Thursday afternoon, July 4th, when Thelma Miller and Evelyn Burris entertained a number of Mildred's friends at the Miller home. The room was very tastefully decorated with wild flowers and peonies, and the guests of honor's chair was most distinguished by its decoration of pink and white streamers and a huge white bell. Many useful gifts were received along with the good wishes of all the girls. The hostesses served a very dainty lunch.

Social Credit

Picnic and Rally

Wed., July 17th

A monster day of celebration has been planned for Wed. July 17, at the Lake McGregor Park, to further the interests of Social Credit. Officials in charge are extending an invitation to everyone so that the day may be a banner one.

The feature attraction of the day will be an address, at 4:30 p.m., by Mr. Blackmore, a prominent Social Credit orator. It is expected that the candidate to contest the Little Bow riding will be named by July 17th and, he too, will deliver an address.

A full program of athletic sports for the boys and girls commences at 11 a.m.

A baseball tournament with teams from Cluny, Champion, Vulcan and Queenstown, will battle for a \$55 in prizes.

A men's softball tournament will also be a part of the day's amusement.

The Arrowwood High School girls will oppose the Milo district girls' team in a softball game.

\$600 in prizes will be paid to the winners of the horseshoe tournament.

Len Davis' Orchestra will supply the rhythm for the dance at the I.O.O.F. Hall, Milo, in the evening.

Admission to the grounds 25c, children free.

Arrowwood Social Credit Study Group Notes

Those who did not attend the meeting in Phillips' Hall on Tuesday, July 9th, certainly missed a great treat. The guest speakers were Mr. Mitchell, one of Calgary prospective candidates, and Mr. J. H. McCaffrey, also of Calgary. Mr. L. Irwin acted as chairman and at once introduced Mr. Mitchell, who gave a short but impressive talk on the aims and ideals of Social Credit and paid tribute to Mr. Abernethy.

Mr. McCaffrey was then introduced and with droll humor kept the audience spell-bound for an hour and a half. Mr. McCaffrey kept away from the details of Social Credit, claiming that if the principles of the thing were right the details could be worked out somehow. He tried that the principles are right and just.

He also spoke of coalition and asked where one could find any greater degree of coalition than in Social Credit ranks. There you would find people from all the old line parties, united for the betterment of the lot of all mankind. Some of Mr. McCaffrey's stories were very illuminating and he talk all the way through well worth listening to.

An effort will be made to get another speaker in the near future, notice of which will be given later.

Appreciation

We wish to express our hearty appreciation for the splendid help of the friends who aided in the marriage of our daughter, Mildred, to Clarence Brubaker.

Flowers—Mrs. J. S. Culp, Mrs. J. Ward, Lila Clifard, Decorations—Thelma Miller and Evelyn Burris.

Music—Lila Clifard and Mrs. Hollenberg.

Dinner—Mrs. Mason, Thelma Miller, Evelyn Burris and Edith Harp.

Mr. and Mrs. A. J. Kauffman

Prestone Tires
PRICED FOR EVERY PURSE

There's no need to sacrifice quality and safety for low prices at so-called bargain places. For Prestone has a quality tire in every price class—no less than \$5.35—and every one carries the Prestone name and guarantee. Get Prestone Safety and Service at unusually low prices. Drive in today to your nearest Prestone Dealer and see how little money is required to equip your car.

Look Ahead And Prepare

Conditions in Western Canada, considering the whole area of the province, present a changed picture this year to that of several years past, and the change is almost entirely due to the Weatherman. With the exception of comparatively small tracts, the great grain producing area of southern Saskatchewan, which in recent years has suffered a lack of moisture has been favored with copious falls of rain, and Nature has thus largely solved a problem which all Governments and individuals, despite the expenditure of tens of millions of dollars, could barely cope with and certainly could not solve.

At the time of writing—which is ten days or so before this will appear in print—prospects are not only favorable for a normal, possibly an above normal, crop, but the big problem of feed and fodder for livestock seems solved as the soil is again saturated with moisture, drought and cracks filled with water, and grass again covers the ground. Admittedly it is too early yet to assume that present favorable conditions will not suffer some setbacks, and it would be a mistake to take too much for granted in a country where conditions change so quickly. At the moment, however, prospects are bright, and the foundation laid by May and June rains is such as to make a decided improvement almost a certainty.

Confidence in the country is being restored and hope is returning to many who had nearly abandoned hope and were on the verge of giving way to despair. Nature has thus provided an object lesson of how puny is man, notwithstanding his really marvelous achievements, when it comes to what are, after all, the deciding factors in the prosperity of any people or country. Man may plan, and should plan within those spheres where the decision and the control rests in his own hands, but all his planning will fail if it is not in conformity with natural laws, and takes into account what we erroneously term the vagaries of Nature.

With the experience of the past four or five years of drought, dust storms, almost complete absence of feed and fodder, seed for a new season's sowing, and an absence of reserves accumulated in good years to tide over the poor years which always come sooner or later, what is going to be the attitude of people in this and it is to be hoped, even expected, future better years? In those districts where there is now an abundance of moisture will the lessons of the past be remembered and steps proceeded with to conserve the surplus wherever possible and feasible? Or will people quickly forget and again live only in the present without taking thought for the future?

If Western Canada is blessed with a bountiful crop, plenty of hay and grasses, large quantities of wild fruits, vegetables, etc., will people, profiting by the past, begin at once the building up of reserves against a future day when Nature may not be quite so generous in the bestowal of gifts? As Western people now look over their green and promising fields, are they planning, if the promise of these fields is fulfilled in the harvest, to conserve a little something, as much as they possibly can, as an insurance for the future? Or will they quickly forget and dispose of their last resource, trusting to the future to again take care of itself?

It is no particular criticism of any person, or class of persons in this country to say that, in many respects, we have been a wasteful people, and have not practised that frugality which would have been the part of wisdom. Practically speaking, all of us have been more or less wasteful. We have employed our resources in satisfying the desires, the ambitions, the pleasures of the moment, without giving sufficient thought to the future. In above-normal prosperous years, instead of providing some reserve in a more or less liquid form to meet future needs, have dissipated them, or locked them up in some concrete way, or used them to expand our operations beyond what was necessary or wise. Thus seeming assets have been found to be heavy liabilities.

All have made this mistake—farmers, merchants, industrialists, financiers, municipalities, provinces, and the Dominion as a whole. Nobody can well point an accusing finger at any other person. But if we are wise, if we are capable of learning anything from past experience, surely we will now as a people, individually and collectively, recognize our past mistakes and not merely resolve not to repeat them, but proceed now to follow a different course, and, like Joseph of old, in the years of plenty put by to carry us and our country through years of scarcity.

Some people in the last year or two became almost convinced that drought and dust storms and crop failures had become a permanent condition. Those of riper experience knew better. They knew that the world has always experienced periods of plenty and periods of scarcity; that this is one of Nature's ways of maintaining an equilibrium, a safe balance. There is reason to hope that the recent period of drought and scarcity has passed, and that a more fruitful period is at hand. But other periods of drought and crop failures will inevitably come; now is the time to prepare for them because surely no person who has suffered through lack of the necessities of life in this recent period desires to pass through the same experience again.

Now is the time to take new heart, but it is also a time to think and act coolly, to keep sane, to take thought of and prepare for the future and leave oneself to the fullest extent possible against whatever misfortunes or setbacks may lie ahead.

The total shipments of certified Canadian exports of canned fruit to Great Britain were 28 per cent greater from January 1 to March 10, 1935, than during the corresponding months of January and February of 1934. The principal increase was in canned apples, pears and peaches.

Strange Discovery

Huge Mass of Black Substantive Found in Northern Saskatchewan

A peculiar rock formation in the shape of a giant dome, which is considered to indicate the presence of either natural gas or oil, has been discovered in northern Saskatchewan, some 40 miles southwest of Lac Du Crosse.

It consists of a huge mound of some black substance resembling crude oil or tar, made up of the centre of which bubbles a salt spring.

Hon. T. G. Davis, K.C., attorney-general, who recently returned from an aeroplane trip over northern Saskatchewan to Lake Athabasca, brought some of the material back with him. He is making arrangements to have it analyzed.

Originally the discovery was made by the Indians, who reported this huge mound of black substance to the government.

Several theories respecting the presence of the mound have been advanced. One is that the salt spring bubbling from the centre has brought with it a flow of oil which over a period of years has built up the mound about the spring similar to a deposit of oil in a well.

The samples brought back by Mr. Davis do not appear to be inflammable, although there is some evidence that the samples which were brought back by the Indians were inflammable.

The giant dome from which the spring bubbles is located in the vicinity of the lake in the vicinity of Lac la Plonge—Regina Lake.

A Marvel At Languages

Man At 81 Has Working Knowledge Of Five Hundred

A man after George Borrower's heart is George E. Hay, who, at the age of 81, has retired from the position of proforeeder for a London firm which specializes in language translations. Mr. Hay is said to have a working knowledge of about 500 languages, but he was chiefly engaged in Oriental tongues and he is reported to speak in Sanskrit, Sindhi, Pusthi, Panjabi, Gujarati, Marathi, Urdu, Hindi, Bengali, Oriya, Tamil, Telugu, Kanarva, Malayalam, Sinhalese, Burmese, Siamese, Laos, Tibetan, Arabic, Coptic, Armenian, Ethiopic and Ancient Egyptian, also Chinese, Syrian, Greek and Hebrew.

As a boy he only had an elementary education, so that all these accomplishments were acquired by evening classes and by reading in museums and the London School of Oriental Languages. Primarily, he owed his success to a marvelous memory.

Even now that he has retired his recreation is studying languages. And there are millions of people who have little more than a working knowledge of one language.

Matter Is Settled

Science Service Estimates Superior Is World's Largest Lake

A year or so ago the News-Chronicle entered into a discussion of the comparative size of Lake Superior and Lake Victoria Nyanza in Africa. Teachers, including some school teachers, advising their pupils, had declared the African lake to be larger.

Using all the information it could obtain from atlases and encyclopedias, this paper proved, to its own satisfaction at least, that Superior was the larger and thus the largest lake in the world. This was definite if depth were considered, for it appears that large portion of Victoria Nyanza's surface is only a foot or so above the bottom and much of it filled with reeds and grasses.

We now find the following paragraph among those issued by the Science Service in newspapers as something "Interesting to know":

"It is estimated that Lake Superior exceeds in size its nearest fresh water rival, Africa's Lake Victoria Nyanza, by a thousand square miles."—Port Arthur News-Chronicle.

To Catch Motor-Bandits

Speed Boat To Tear Tires Is Laid Out

A policeman of Boston, England, has just invented a "motor-bandit stopper," which is expected to halt the worst of criminals. It is in the form of a speed boat, which, when thrown in front of a speed car, bursts into several spiral arms covering a span of six feet and is said to tear the toughest tires to shreds.

A Swedish geologist concludes that the south island of New Zealand had a warm, almost sub-tropical climate no longer ago than the year 1000 B.C., after which the climate became much colder for reasons not fully understood.

COULD NOT SEW A BUTTON ON

Her Hands Were Helpless With Rheumatism

At one time she thought she would lose the use of her right hand. But "a blessing" in the form of Kruschen Salts put her right again.

"I was sure in the bad state I was in. 'In fact, I could not do my housework. I was so bad with rheumatism in my arms and hands, I could not sleep at nights, and I thought I would lose the use of my right hand. I could not hold anything, nor could I sew a button on. My arm would go dead. I was advised to try Kruschen, and inside of three weeks I found such a change. I have kept on taking it, and now I sleep all night—thanks to Kruschen's help and relief.'—(Mrs.) J. H."

Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals, which are responsible for rheumatic agony. Other ingredients of these salts assist Nature to expel these dissolved crystals through the natural channels.

German's Challenge Record

Bremen and Europa Will Make Attempt With Reserve Force

According to hints from German shipping quarters, the North German Lloyd liner Bremen, which will take up the battle for the "blue ribbon" of the Atlantic, which has been won by the French liner Normandie, is ready to accept the challenge.

Open expression of this determination was given by the Boersen Zeitung in a dispatch from Hamburg.

"It is not unlikely," the dispatch said, "that the Rex (Italian liner) or Bremen or Europa have still some reserve force in reserve, which they may give the Normandie a surprise."

The two German vessels have never used their top speed, which in regular runs and have been holding back for just such competition as the Normandie or the Canadian White Star Queen Mary is a story that always has been believed in Germany—with what justification remains to be seen.

Animals Like To Play

Even Clumsy Polar Bears Are Great Fun Makers

Almost any time is play time with monkeys. Give a monkey a musical instrument and he will play for hours.

Another monkey delight is to dress up and act like a human. One keeper at the London Zoo trained four young chimpanzees so well that they will take a meal at a table from tin plates and tongs, and pass everything on to a pole.

The Polar bears are also great fun makers. The crew of a whaling ship once watched two bears playing on a small iceberg. The two trained their game was to push and scramble about at the edge of the ice until one was pushed into the water.

Immediately the other bear would jump in beside him, and there would be another tussle until one was forced back to the ice. The winner would also come out, and the game would start over again.

Town Seeing Double

Contest In California Brought 500 Pairs Of Twins

Five hundred pairs of twins answered the call when Long Beach, California, announced a twin contest. Youngest were Patricia Gale and Gale Patricia La Forte, 11 weeks.

Oldest were H. E. and A. L. McArden, hale and hearty at 85. A twin judge performed a twin marriage ceremony attended by 23 pairs of twins as bridesmaids and another pair as flower girl and ring bearer.

The town is still seeing double.

Turkey Mothers Hawk

Ancient story of the farm yard, a batch of young hawks has been adopted by a hen turkey at the home of D. Read, a Bahaw district farmer. Read robbed several hawks nests and brought the eggs home, and set them under the turkey hen. Hatched, she mothered the young sky battlers as her own.

Having a keyboard that can be extended over a bed, a piano can be played by a person who is ill has been invented in England.

TOOTH PAIN EXTERMINATOR
THE FAMILY FRIEND

Queen Likes Natural Folks

Not Reserved If People Chat With Her Freely

In the Jubilee number of The Manchester Guardian a contributor writes about Queen Mary this way:

"The Queen's mind is a powerful rather than quick. Once said to a friend, 'I find it a great effort to think of something fresh to say to everyone I meet.' The friend replied, 'Oh, your Majesty should not try. If I were in your place I should think of something else to say when I got out of bed and say it to everyone I met that day.' But the Queen replied, 'Oh no, you would not. The press would get hold of it and say that you were inane.' Whatever else anyone said of the Queen it would be impossible to call her inane."

At a first meeting people often leave all the conversation to her Majesty and so find it difficult to get on with and think of anything to say. A very slight acquaintance, however, helps them to realize her extraordinary kindness of heart and the in which she never forgets anyone she has ever met or misses a chance to do a kindness. If she has been interested in any case of suffering or want, and meets the person who brought it to her notice again, it may be 30 years after, she will at once say, 'And how are you getting on? Everything is going on well.' In fact, anyone who will chat freely with the Queen as he would with any other elderly and charming person, and with her kindness and sympathy, will find her at once easy to get on with and charming. Her wide knowledge of the subjects that interest her and her readiness to say when she is not an authority on any subject, her ready humor and her sincere kindness make a conversation with her a thing to remember. Her chief interest in life now is undoubtedly the little Princess Elizabeth. She is wrapped up in her and no wonder for her charming little girl or one more completely unspoiled by her high position, it would be impossible to meet.

Charged With Writing Anti-Italian Articles

Italy Has Expelled Rome Correspondent of Chicago Tribune

The Italian government press bureau has expelled David Darrah, the Rome correspondent of the Chicago Tribune. Darrah and his wife were forced to leave immediately. The reason for Darrah's expulsion was given as the writing of anti-Italian articles.

The bureau also issued an order banning until further notice the entrance of copies of the New York Times and the Washington Post into the country.

The editorial appeared in the Guardian and the lifting of a Prime Minister Stanley Baldwin of Great Britain and Premier Benito Mussolini of Italy.

The action against the New York newspaper follows a similar one against a group of English newspapers, including the Manchester Guardian, and the lifting of a ban against German newspapers, including the Nazi organ, the Volkischer Beobachter.

Makes Testing Saver

Spinning Device Determines Whether Auto Wheels Need Adjusting

Eliminating hazardous road tests for "shimmy" and wobble, a dynamic spinning device subjects each wheel to a similar test without removing the car from the repair shop.

The machine consists of a spin wheel mounted on the shaft of an electric motor and carried on a small rubber-tired dolly. The speed of the motor is controlled from the end of a tubular handle like a vacuum cleaner. The spinner wheel rocks from side to side for adjustment to the plane of the cambered auto wheel so that the tire will not be damaged. The test is made with the wheel on the ground, which wheel being jacked up and spun with the machine. The motor quickly accelerates the wheel to eighty or 100 miles an hour. When the shimmy speed is reached the whole car shakes violently, indicating the wheel is out of balance and that it should be removed and true up—Popular Mechanics.

Choir Boys Liked Tour

Twelve Youngsters Return To London After Tour Of Canada

Twelve young choir boys, who had been touring Canada, returned to London after a successful tour.

Rock-fountain chocolate milkshakes made a deep impression on all but one of 12 youngsters of the London choir school who returned to England from a concert tour in Canada and the United States.

The young choristers expounded their views on the United States and Canada in epigrammatic fashion, with food the predominant note. "Chocolate milkshake is a marvelous drink," one of them said. "I don't suppose I'll be able to get anything like it over here."

Buffalo Hill Notes

(Continued from page 1)

The crops in the Hills are looking well but a good rain would be welcome. The moisture lately is limited to scattered showers—mostly scattered.

The economic situation is on the mend, judging by the new cars in the district.

Brotherhood Church Notes

Sunday School at 10:30.

We are expecting young ministers will be in attendance at the Young People's camp to speak at both the morning and evening services. However, we are not yet in a position to say just who they will be.

The Young People's camp will be in progress from Thursday of this week until Tuesday of next. This is a rare opportunity for the Young People of this community. All are welcome to enroll. The fee for the entire time is only \$2. A daily schedule of fun, study and inspiration is carried out, which will result in a great and lasting memory.

The District Conference will convene in the Irwinia church next week from Tuesday evening until Friday afternoon.

Then comes the great favorite of the boys and girls: Vacation Bible School. Quite a number have asked whether there will be a Bible School this summer. Yes, there will be. Tell the boys and girls to expect it.

Baseball Notes

Playing on the home diamond before a fair-sized crowd last Wednesday the Arrowwood nine shut out the Gleichen team in a game which was called in the sixth on account of rain. The locals were full value for their win, playing excellent baseball behind the steady pitching of "Casey" Norton, who allowed the visitors but two hits to hold them scoreless.

Bert James and Bob Brown, fast outfielders made sensational catches in the outfield for Gleichen. Nowicki, the Gleichen hurler, was in trouble from the start when he was hit freely for 4 runs when Archambault, the lead-off man hit for two bases, sharp singled, McCullough hit a homer to

left centre, M. Bowman singled, and Cary hit a neat sacrifice fly ball to centre field. F. Miller played a steady game at third as did D. Bowman at short.

Gleichen—Maizus ss, J. McArthur c, Blaney rf, James cf, Fox lb, Brown lf, Queenel 3b, Cook 2b, Nowicki p.

Arrowwood—Archambault c, Sherpe c, McCullough 2b, M. Bowman 1b, D. Bowman ss, Cary lf, Norton p, Miller 3b, Vancil rf, Umpire—Dr. Liesemer

Strathmore 9-Arrowwood 0

In a Bow Valley League fixture Monday night the local team were far below usual form and bowed to the Strathmore nine by a convincing score. Owing to the Stampede attractions, both teams were considerably weakened by the lack of several regulars. The heavy wind made good ball difficult but the local boys feel they can avenge the defeat in the next meeting with Strathmore.

Strath—Gray lb, Chase lf, Ainsley ss, Crowe p, Crellin c, Moran 3b, Ridley 2b, VanTighen rf, Ridley cf.

Arrow—Bowman ss, Norton p, Archambault c, McCullough 2b, M. Bowman 1b, E. Norton lf, Cary 3b, Richards rf, Scott cf.

The Home Merchant

The home merchant. Who is he? He is the chap who gives you credit when you are financially broke, and carries your account until you are able to pay. He is the chap who gives you back your money or makes ex-

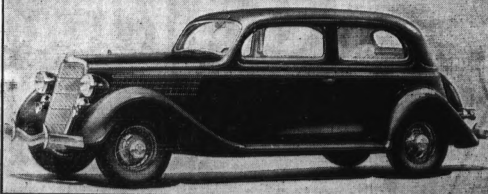

changes when you are not satisfied with what you have bought. He is the chap who stands behind the guarantee and makes restoration of all losses that you may sustain on the goods you buy. He is the chap who meets you at his door with a handshake and lets you out with a message to the "kids" and a real congenial goodbye. He is the chap who meets you on the street every day in the year and takes a neighborly interest in your family and your affairs. He is the chap who pays heavy taxes to help support home schools, helps build your town streets, and maintain the fire department and lighting service. He is the chap who visits you when you are sick, sends flowers to your family when you die, and follows your body out among the trees and tombs, as far as human feet may travel with the dead.

He is the home merchant—your neighbor—your friend—your helper in times of need. Don't you think that you ought to trade with him, and be his friend and his helper in the time of his need? Don't you know that every dollar you send out of town for merchandise is sent to strangers—to the man who never spent a dollar here, to men who would not trust you for a box of matches. —Dunville Chronicle.

Morning Captain A. J. Halley, M. V. R., who retired from command of the Canadian Pacific Express of Canada after thirty-four years with the C.P.R., shipmates and shore-side friends presented him with an engraved wrist watch at a luncheon recently aboard the ship. Captain Halley left the sea with forty-four years of service behind him on the service line.

New Body Lines and More Room in 1935 Ford V-8

THE largest and roomiest cars Ford has ever built, with new body lines of advanced streamlining design, are illustrated above in this Ford V-8 de Luxe Tudor sedan for 1935. Seams seat six passengers in comfort. Luxurious appointments are new. The eleven body types are all finished in new baked enamel which is said to need only washing to restore its high luster. Cars are approximately eight inches longer from bumper to bumper and seats are wider. Chassis improvements, including moving the engine forward more than eight inches and new spring suspension, add to riding comfort, especially of rear seat passengers. Directed-flow crankcase ventilation is an improvement of the 90 horsepower V-8 engine.

Vol. 4, No. 45. Arrowwood, July 11, 1935. Items for 'Thot

The 1935 Ford V-8

Is acclaimed by everyone for its stunning beauty, luxurious upholstery and smart appointments. Beneath shimmering beauty is Gibraltar-like strength and safety—a welded-into-one-piece solid steel body. The extremely strong X-type frame of last year has been further strengthened. The breaks are more powerful and operate with less pedal pressure. Big Air-Balloon tires give more road contact and resist tire roll on fast corners. De Luxe models are equipped with Safety Glass all around—at no extra cost.

Our new **SPECIAL WHITE GAS** is a refined product and is meeting with general approval—at a new low price.

Autolene Oil, the life-saver of gas engines—a weight for every purpose at attractive prices.
